

## Proposed New Organizational Chart

The work of the Organizational Task Force is complete. It is now the Boards responsibility to take action to move this project forward.

## Stewardship, the Bigger Picture

“Stewardship is the growing, nurturing, promoting, and building of the gifts, call, and spiritual vocation that have been given to us. Stewardship is the spirit that influences the things we do.”  
*Beyond Fundraising*

The above definition of Stewardship is much broader than pledge activity alone. The Proposed New Organizational Chart assumes such a definition of Stewardship and will require further study as well as member education. The Board may want to consider establishing a separate subcommittee or task force to further research, promote and manage this process.
