RE: Service on Staff Resources Committee
Date: 07/09/18

My term on the Staff Resources Committee expired 06/30/2018. I have served in this capacity with one interruption since the committee's inception. I would request, if it please the board, to serve an additional year thru 06/30/2019. I wish to continue to serve, at the board's pleasure, to provide continuity, and support in an apparently challenging year. Other matters aside, the committee will loose additional long serving membership in the foreseeable future. My purpose would be to support institutional memory and the transition to a committee comprised of newer members. I would characterize my service as a supporting member, without a vote. I will help train, support and execute special tasks within my skill set as the committee sees fit. I will not necessarily attend every meeting but will support the committee as we mutually see fit.

I wish to thank the board for its consideration.

Sincerely,

Karl Love
