Re: Proposed resolution for consent agenda

At our August meeting, we were informed of the fact that we had not sought to reconfirm our status as a Welcoming Congregation. We understand that we are not alone within the UUA and that renewal has not been a part of the program historically. We agree with the idea that review and renewal of our commitment should be an ongoing process.

Renewing our status as a Welcoming Congregation is an important element of our ministry. We are preparing for a meeting on November 2nd, one goal of which is to establish priorities for the upcoming program year and beyond. We agree to identify renewal of our Welcoming Committee status as a priority for consideration during that meeting.
